

NOTE XXIV.

THIRD SUPPLEMENTARY LIST ¹⁾
 OF THE DESCRIBED APOGONIA-SPECIES,
 WITH AN ALTERATION IN NOMENCLATURE

BY

C. RITSEMA Cz.

Apogonia

Kirby, Trans. Linn. Soc. London, XII, 1818, p. 404.

- apicalis** Moser, Ann. Soc. Ent. Belg. LII, 1908,
 p. 331 Tonkin.
- improba** Péring. Trans. S. Afr. Soc. XIII, 1904,
 p. 292. — id. Cape Town Trans. S. Afr. Phil.
 Soc. XIII, 1907, p. 292. Rhodesia.
- lobata** ²⁾ Kolbe, Kilimandjaro-Meru Exp. 7, 18,
 1910, p. 347 E. Africa.
- lutea** Moser, Philipp. J. Sci. D. V, 1910, p. 188 Philippines.
- mashona** Péring. Trans. S. Afr. Soc. XIII, 1904,
 p. 292. — id. Cape Town Trans. S. Afr. Phil.
 Soc. XIII, 1907, p. 292. Rhodesia.
- metallescens** Moser, Philipp. J. Sci. D. V, 1910,
 p. 186. Philippines.
- minima** Arrow, Ann. & Mag. Nat. Hist. (8) III,
 1909, p. 519 ³⁾. Congo.
- nigrobrunnea** Moser, Philipp. J. Sci. D. V,
 1910, p. 187 Philippines.
- rugipennis** Moser, l. c. p. 189 Philippines.
- viridana** Moser, l. c. p. 187 Philippines.

Leyden Museum, February 1912.

1) See: Nederl. Tijdschr. v. Ent. XXXIV, 1891, p. XCIII; Notes Leyd. Mus. XVIII, 1896, p. 55; id. XXV, 1905, p. 111.

2) As the name *lobata* has already been bestowed upon a species from Borneo (cf. Notes Leyd. Mus. XXV, 1905, p. 106) I propose to call Prof. Kolbe's species: **Moseri**, in honour of Mr. J. Moser, the well known student of the Cetoniidae and Melolonthidae.

3) Subgenus *Rhynchogonia* Arrow.
